## PROFESSIONAL SUMMARY

Frontend Engineer specializing in React, Next.js, and TypeScript, with strong backend capability using NestJS and PostgreSQL. Experienced building scalable marketplace and service-platform products across web and mobile, with a focus on frontend architecture, performance optimization, API integration, and production-ready user experiences. Comfortable owning product features end-to-end in fast-paced startup environments.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3

**Frontend:** React.js, Next.js, TypeScript, React Native, Tailwind CSS, Material UI

**Backend:** Node.js, NestJS, REST APIs, Prisma ORM

**Databases & Cloud:** PostgreSQL, Firebase, Supabase, Cloudinary

**Tools & Platforms:** Git, GitHub, Postman, Vercel, Figma

**Engineering Focus:** Frontend Architecture, API Integration, Responsive Design, Performance Optimization, Authentication Systems

## PROFESSIONAL EXPERIENCE

### Deepintel Ltd — Frontend Engineer

Remote | 2023 – Present

- Built scalable React and Next.js applications supporting internal workflows and customer-facing product experiences.
- Developed reusable TypeScript component systems used across multiple product flows, improving UI consistency and development efficiency.
- Improved frontend performance and Core Web Vitals through component optimization, responsive asset loading, and rendering improvements.
- Collaborated with product and engineering teams in agile environments to ship responsive, production-ready features.
- Contributed to frontend architecture decisions, code quality standards, and maintainable UI patterns.

## PROJECTS

### MechLink — Founder & Frontend Engineer

2025 – Present

- Built a marketplace platform connecting vehicle owners with mechanics and spare-parts vendors through service discovery and request workflows.
- Developed responsive frontend applications using React, Next.js, and TypeScript for mobile and web users.
- Architected backend infrastructure using NestJS, PostgreSQL, Prisma ORM, and Cloudinary for scalable service operations.
- Implemented authentication systems, image uploads, service request flows, and relational database models.
- Led product development from concept to deployment, including frontend architecture, backend APIs, and platform workflows.

### CarTrims — Frontend-Focused Full-Stack Developer

2025 – Present

- Developed marketplace experiences for automotive listings, bidding workflows, wallet funding, and user transactions.
- Built responsive interfaces using Next.js, TypeScript, Tailwind CSS, and Material UI across web and mobile devices.
- Integrated REST APIs and transactional workflows supporting marketplace operations and user activity.
- Improved cross-device usability and responsive behavior across marketplace workflows for mobile and web users.

## EDUCATION

### Bachelor of Engineering (B.Eng.) in Civil Engineering

Federal University of Technology Minna, Nigeria | 2011 – 2016

## CERTIFICATIONS

### Meta Front-End Developer Professional Certificate

Coursera | 2023
